

WHAT ARE THE BENEFITS?

- ◆ **Private Instructors teach children to be comfortable in the water first.**

Fear is the biggest roadblock to swimming success. A professional teacher will take the time to make sure they know what to do if they fall in.

They will learn how to feel confident in any aquatic environment. Instructors teach them how to hold their breath, blow bubbles, be face-down in the water, float on their backs with no assistance-all while enjoying the experience.

- ◆ **Private swim lessons for children put your child at the center of attention.**

With just one student, one instructor and one pool, your child will learn how to swim with less distraction and 100% of the focus. Personalized, one-on-one attention from a friendly, qualified instructor makes the learning process quick, easy and fun.

- ◆ **Private swim lessons are more affordable than group lessons.**

A smaller class size gives children the individualized attention they need to progress much more quickly.

- ◆ **Your child can learn at your desired time.**

When you opt for private swimming lessons for kids or adults, you have the luxury of choosing the time that is most convenient for you. An indoor location allows the best continuity and year-round success.

CONFIDENCE WITH EVERY STROKE

When you opt for private and semi-private swimming lessons for kids, you have the luxury of choosing the time that's most convenient for you and your child. Many kids swimming lessons are offered at outdoor facilities, but an indoor location allows the best continuity and year-round success.

If you're looking for the fastest, easiest and most affordable way for your child to learn how to swim, it's time to seriously consider private swim classes for children. All of Safari Island swim instructors are trained and lifeguard certified which means you'll know your child is in the best hands possible. Plus, you'll be giving them the unique opportunity and potentially learn faster and better than their peers in group lessons.

Private and semi-private lessons give participants a customized one-on-one experience with an instructor to reduce fear of the water, improve particular strokes and refine skills. Semi-private lessons are for two to three students that are of the same ability and similar in age. Students between the ages of 3-6 years old that want to take private lessons together must have no more than a one year age gap between them.

When your child is comfortable in the water and knows how to swim, they will start to build a lifetime of memories!

SEMI-PRIVATE SWIM LESSONS

**Package Options	30 minutes	45 minutes
4 sessions	\$60	\$80
8 sessions	\$104	\$144
